Welcome to your New School

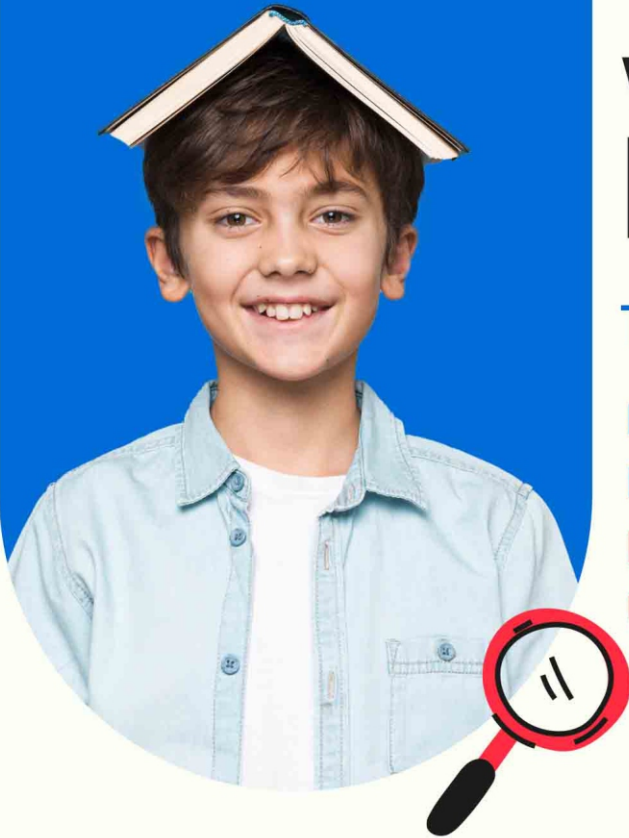

Themes and Concepts

Playgroup – 1.5 to 3 years

Nursery – 3 to 4 years

Lower Kindergarten(LKG) – 4 to 5 years

Upper Kindergarten(UKG) – 5 to 6 years

OUR CURRICULUM

• Sensorial Activities

Encourage children to use their senses to explore the world around them and guide them how to behave in people.

• Language Concepts

Help children develop a love for books and reading, and develop pre-writing and writing skills through the use of stories and themes.

• Numerical Concepts

Which are taught through a hands-on, practical approach so that fundamental concepts are properly understood.

• Play-Based Learning Activities

Such as dramatic play, creative play and play with sand and water.

• Science and Nature Studies

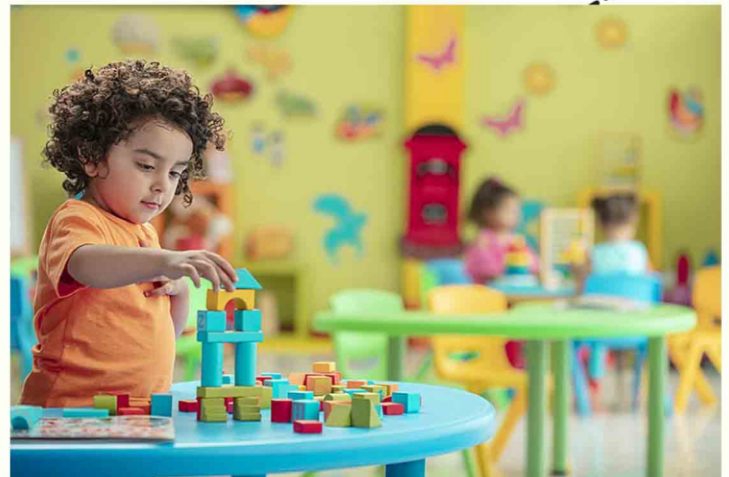

Provide children with an opportunity to make their own investigations and carry out simple experiments.

• Creative Activities

Help our students develop their creative side through different art and craft media, through music and drama.

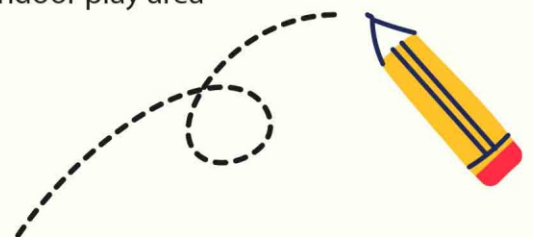

• Physical Development Activities

Help in the development of strength, balance, stamina and coordination.

- Strong international make-up
- Focus on particular age group
- Flexibility of academic programmes to fit the scholastic requirements
- Integration of technology
- High standards curriculum and small class size
- Spacious indoor play area

OUR PROGRAMS

(1) Gross Motor Skills which require balance and coordination, and are developed through activities such as running, climbing, hopping or playing with ball and bat.

(2) Fine Motor Skills with which children develop the abilities to do such things as write and manipulate small objects. Playing with dough, sorting, dressing, colouring an object.

(3) Mathematical Concepts are understood through activities that include matching objects, sorting and classifying by attributes (or ID), recognizing no (0-30), and rote reciting of no (0-100).

(4) Science Concepts are understood through activities that include observing and identifying body parts, using the five senses, colours, classifying and categorizing animals, identifying opposites and learning about natural resources.

While They Play, They Learn

(5) Life Skills is a diverse area, where students are taught the importance of using positive manners in both words and attitudes, learning to follow directions, learning to solve problems verbally instead of using physical means and more.

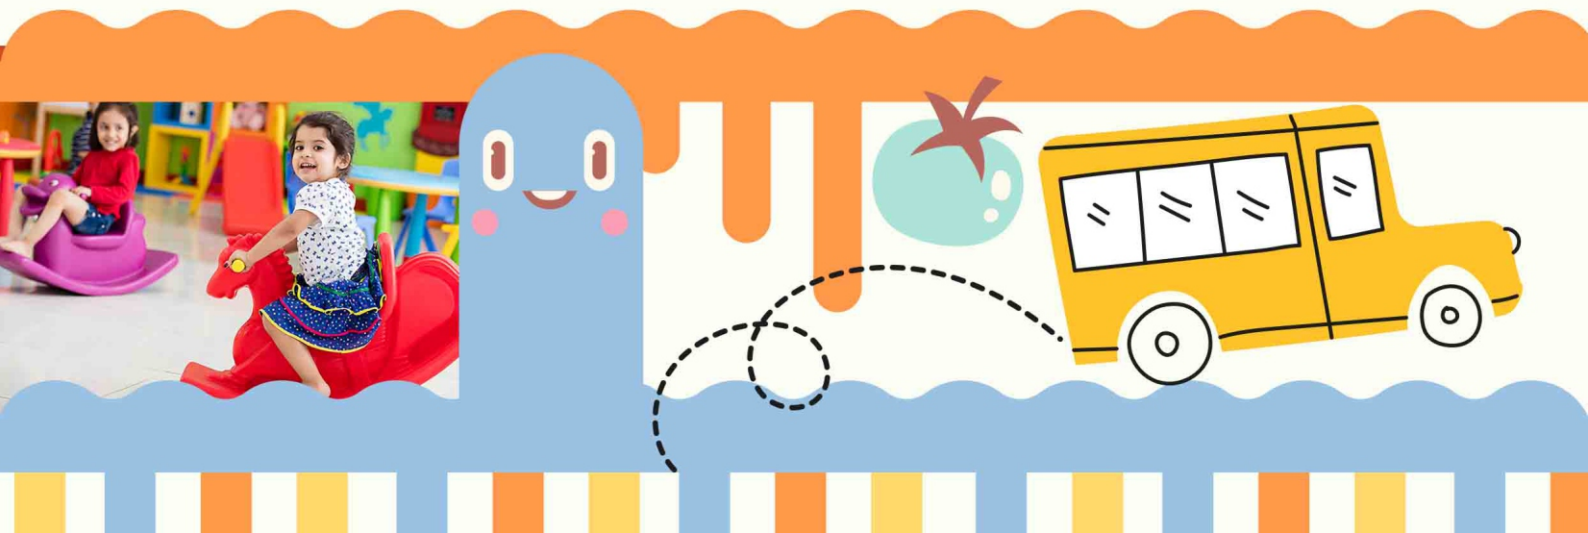

(6) Language Concepts are developed through activities that include listening, dramatic play, recalling story events, words phonetically.

(7) Music skills help children to acquire language and sense of rhythm. It includes copying movements, moving physically to music, dancing, expressing mood through movement, and identifying instruments by name.

(8) Art and craft are necessary part of a child learning curriculum. Drawing, painting, pasting, tearing, cutting, rolling papers, rubbing and mixing colors.
